

Supplement 5 to the Network Statement 2020

ProRail has adopted the following supplements and/or amendments to the Network Statement 2020, in accordance with the provisions of Chapter 1.6 of this Network Statement.

Extension of payment term for user charge and non-application of reservation charge

I Extension of payment term for user charge

In Chapter 6.7 after the first sentence "ProRail invoices the charges per calendar month after the end of the month concerned.", the following provision is inserted:

In connection with the coronavirus and its effects on railway undertakings, ProRail has decided to temporarily extend the payment period for the user charge. Contrary to Article 24(1) and (2) of the General Terms and Conditions 2020, accompanying the Network Statement 2020, a payment term of a maximum of 90 days after receipt of the invoice instead of 30 days shall apply for the period February to May 2020 inclusive. This change only concerns the charges for service packages 1 and 2 and the charge for the ECA service. The payment term for package 4 services remains unchanged.

II Non-application of reservation charge

In Chapter 6.4.2, the following is inserted after the second paragraph:

Due to the coronavirus and its effects on railway undertakings, the reservation charge shall not be applied in the 2020 timetable year. This applies both to the reservation charge for capacity relating to train paths and to the charge relating to capacity for stabling.
